

Reporte de Visita - Intermar

Fecha: 01/12/2025 09:58

Técnico: David

Resumen General:

asdadasd

Conformidad:

Bitácora Detallada por Usuario

Usuario: Raimundo Chico	ATENDIDO
Trabajo: Mantenimiento: Optimización Disco (09:57), Revisión Cables (09:57)	

Evidencias:

The screenshot shows the storage usage for a Microsoft account. It indicates 99.00 GB of electronic mail storage available, with 96.43 GB utilized (97.0%). A breakdown shows 753.96 MB in the 'Bandeja de entrada' (Inbox) and 16.10 GB in 'RUTA DE VIAJES' (Travel Route). Other categories like 'Elementos enviados' and 'Otros' are present but smaller. Below this, a table lists various mail folders with their sizes and message counts, including 'Elementos eliminados' (Deleted Items), 'Bandeja de entrada' (Inbox), 'Elementos enviados' (Sent Items), 'RUTA DE VIAJES' (Travel Route), 'Conflictos' (Conflicts), 'KARIN MILLACAN' (Karin Millacan), 'Archivo' (Archive), 'BSC' (BSC), and 'Borradores' (Drafts).

Trabajo: Mantenimiento: Borrar Temporales (09:58), Actualizaciones Windows (09:58), Revisión Antivirus (09:58)	

Evidencias:

The screenshot displays two windows. On the left, a browser window shows the Google Chrome update status: 'Chrome está actualizado' (Chrome is up-to-date) with version 130.0.6723.92 (Build oficial) (64 bits). On the right, a 'Cisco Secure Client' window titled 'Secure Endpoint' shows the results of a 'Escaneo de flashes' (Flash scan). The scan completed successfully, with a green checkmark icon. The results show 'Escaneo completado: Limpiar' (Scan completed: Clean), a duration of '0d:09h:03m:27s', 14500 scanned files, and 0 threats detected. There is also a 'Historial de eventos' (Event history) button.
